

# Change Places

*This is a fun drama game that will test a pupil's listening skills, as well as observation, spatial awareness and concentration.*

*It is appropriate for all ages and abilities and should last around five to ten minutes.*

## **Instructions:**

- 1) Gather the pupils into a circle.
- 2) Ask the pupils to change places when they hear a description that applied to them. For example, 'Change places if you have blue eyes' - each pupil with blue eyes would change their place in the circle.

***For variation, add a competitive element.  
For example, take away a chair each time,  
until you are left with just one pupil.***
